AlphaLISA™ *SureFire*® Biotin Free

Human and Mouse XIAP Total Detection Kit

Product number: ASBF-TXIAP-A500, ASBF-TXIAP-A10K, ASBF-TXIAP-A50K, ASBF-TXIAP-A-HV

Kit specificity:

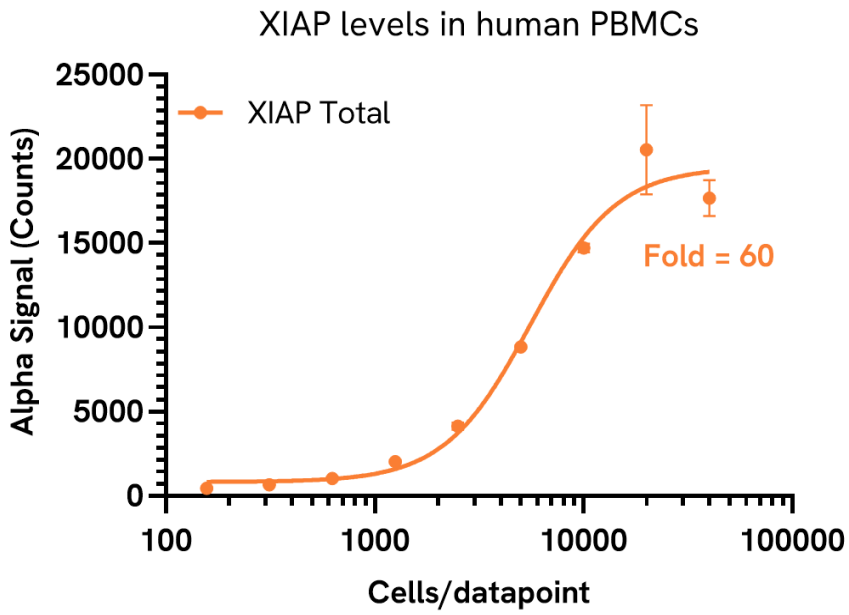

This assay kit contains antibodies which recognize distinct epitopes on XIAP. The protein detected by this kit corresponds to UniProt ID P98170. XIAP is also known as E3 ubiquitin-protein ligase XIAP. These antibodies recognize XIAP of human and mouse origin. Other species should be tested on a case-by-case basis.

Control lysate information:

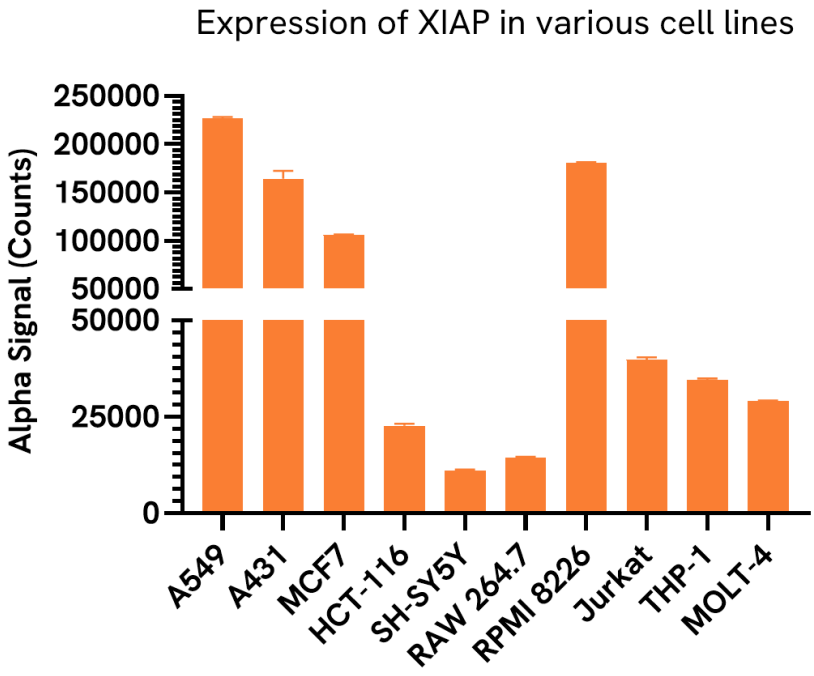

Positive Control Lysate: Prepared from THP-1 cells, cultured in T175 flasks with 10% FBS containing medium and lysed at 4 x 10^6 cells/mL in Lysis Buffer.

Representative data:

Data obtained with a 2-plate, 2-incubation protocol. Peripheral Blood Mononuclear Cells (PBMCs) were isolated from healthy donors using Ficoll Plaque Plus (Merck GE17-1440-02). Cells were lysed at 4 x 10^6 cells/mL with Lysis Buffer for 10 minutes at RT with shaking. Lysate was serially diluted, then assayed for XIAP Total using the *SureFire* Biotin Free kit. Approximate number of cells/datapoint is indicated in the graph.

Data obtained from measurement of XIAP Total in various cell types lysed with Lysis Buffer. Equivalent to approximately 20,000 cells/datapoint for adherent cells or 16,000 cells/datapoint for suspension cells.
